HOAGLAND'S NEW PATENT SHAFT COUPLING! W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive Carriage Factory, Corner of Second and Morrison Streets. He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by D. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MAY 18.

Congressional.

WASHINGTON, May 17.—In the Senate to day, Howard, from the Pacific Railroad Committee, reported a substitute for the Marshall and San Diego bill, which authorizes a railroad from Marshall, Texas, to Trinity River, thence to El Paso, on the Rio Grande, thence through the Territories, across Colorado river to San Diego. The bill grants twenty alternate sections of land on each side of the line in the Territories, and ten sections in any State through which the Railroad passes. The bill was ordered printed and recommitted.

A bill to relinquish the interest of the United States in certain lands in San Francisco, was discussed by Casserly, Cole, Williams and Stewart, and passed.

In the House, Julian presented two petitions against Stephen J. Field, Justice of the Supreme Court, and Ogden Hoffman, District Judge of the United States, District of California, praying that articles of impeachment be presented against them; referred to Judiciary Committee.

Washington News in General.

WASHINGTON, May 17.—The Senate has confirmed Napoleon B. Stone as Postmaster at San Francisco. The Reconstruction Committee have agreed to report a bill to re-admit Georgia on terms precisely the same as those of Virginia, Mississippi and Texas, with the addition that the four States named are allowed to organize, commission and call into service militia forces.

The San Domingo treaty will probably go over to the next session of the Senate.

New York Judicial Election.

NEW YORK, May 17.—The State election for Judges of the Court of Appeals to day, was carried by the Democrats by at least 50,000 majority. The Tammany candidates were successful throughout the city by about the usual majority. The negroes voted and were not interfered with. Election unusually quiet. This city gives 60,000 majority; Brooklyn, 9,000; Troy, 1,700; Buffalo, 1,200. The Democratic majority in the State will exceed 75,000.

New York News.

NEW YORK, May 18.—The fire last night destroyed the machinery and stock of the Van Tuey Charcoal Grinding Company on Cherry street, to the amount $75,000. The building is badly damaged.

The *World* says the Judiciary election in that State yesterday resulted in an overwhelming Democratic triumph. Democratic gains are uniform in all parts of the State. It estimates that the Democratic Chief Justice in that State will be 53,000. Democratic majority in that city—60,000. All Democratic candidates for Judges of Common Pleas and Marine Courts, with Aldermen and Assistant Aldermen are elected in Brooklyn. The regular Democratic ticket was successful over the coalition. The election passed off quietly. In the city negroes voted unmolested with exception of one or two cases. Several negroes were arrested.

The *Tribune* says the legal vote of the city was about half polled yesterday, but the illegal was out in full force. In most of lower wards more fraudulent than lawful votes were cast, some voters making a day of it by voting from poll to poll, sometimes in the name of illegal voters whom they falsely represented.

A Washington special says that the Banking Committee voted down all amendments to the new banking bill which is therefore to be reported to the House in its present shape, providing for the issue of $95,000,000 national currency to States having less than their proportion, and for the redemption and cancellation of $45,000,000 of 3 per cent. certificates, and for the cancellation of $40,000,000 of legal tenders. The additional currency will be secured by deposit of 4½ per cent. bonds exempt from taxation, and when $50,000,000 of the new issue has been taken up all banks shall receive some 4½ per cent. bonds as security for their circulation. It provides for free banking on gold basis, and for the redistribution of $25,000,000 national bank notes, taking that amount from States in excess and distributing it to States being deficient. This redistribution shall not take place until $95,000,000 provided for shall have been issued. It reduces the tax on circulation one-half on all that secure their circulation by new bonds. The feeling in the House is strong in favor of a greater reduction in taxation than the committee has reported, and if it becomes certain that no reduction of tariff will be made, a number of prominent members are in favor of fixing the aggregate reduction of internal taxes at from $50,000,000 to $75,000,000.

From San Francisco.

The school teachers' excursion has some unpleasant features for the outside participants, who were required to-day to pay $30 each in addition to $140 already paid, making $170, while teachers go at original rates.

P. T. Barnum was among the arrivals by the Eastern train this evening.

From Arizona.

LOS ANGELES, May 18.—Prescott, Arizona, advices to the 2d inst., state that the dry season is felt in Arizona with a short supply of water in all the creeks. Mining news meagre.

No Indian murders are reported. The visits of friendly Indians are followed by so many murders and robberies that petitions have been presented to Gen. Wheaton, at Fort Whipple, to prevent them coming into the settlement.

Flour in Prescott is $4 00@4 20 per barrel, other provisions proportionate.

The inadequate military force to defend the country from risk of property and life in working ranches, even near army forts, indicate no probable change from the present condition of affairs.

Those "Starving Workingmen."

[From the Marysville (Cal.) Appeal.]

Those "workingmen" of San Francisco whose labors consist in getting up mass meetings, running Democratic primaries and "cussing" the Chinaman, have an organ. If this organ does not receive their cordial support, then these unfortunate *bummers* are utterly devoid of gratitude, for it is difficult to see how a greater amount of their peculiar bosh could be published in the same space. For reckless assertions, incendiary appeals, demagogical utterances and ridiculous nonsense generally, it certainly bears off the palm. Let the reader contrast the brawny fellows who pack mass meetings, knock men's teeth down their throats, and maul each other in the most approved fashion, with the terrible picture of their condition as depicted in most heart rending English, by their organ. "How is times in 'Frisco?" is a question that can easily be answered, says this journal, and it proceeds to answer it by declaring "Bread! is the word." If their condition is "bread," it is certainly not well bred. The unfortunate state of these "bread" men is thus described: "And yet how many of those who readily cry out hard times realize that the wolf is at the door, and worse, that the gaunt spectre of starvation is within; that there are little ones dearer than life who hold up their tiny hands and plead for food, whose cry with the morning lightens, "Oh, mother, give me bread!" Men who live in the country, would naturally suppose that such a terribly condition of affairs would induce these "bread" workingmen to go where they could get work, if it could not be obtained in the city, but this is not the style of your metropolitan "workingman!" When the "gaunt spectre of starvation" is at the door, he hires a large hall; when the little ones, dearer than life, hold up their tiny hands and plead for food," a mass meeting is called, and the cry "Oh, mother, give me bread!" is responded to, to the entire satisfaction of these starving people by Winn, Hickey, Pixley et al., in denunciation of capital and wordy onslaught on the Chinaman. This appeases the hunger of these workingmen and their families, the effervescing of the gas which they consume at one meeting, generally satisfying the cravings of their hunger until the next. "Hark!" says their organ, "do you hear the groans of the once strong men, whose hollow cheeks have all been wasted by hunger?" We confess that we do not. It is difficult, away up here in the country, to imagine the waddling, oleaginous Winn thus shrunken, to contemplate the wasted form of the Falstaffian O'Connell, or the plump cheeks of the voluble Hickey made hollow through hunger. The only hollow cheeks we can imagine are those of Campion, made so by his jaws having been knocked down his throat by the puny arm of one of these weak starvlings. The organ thinks that "the proud workingman must be laid low;" a proposition in which we do not agree. We think the miscalled "workingmen" of San Francisco are quite low enough, when instead of striking out like men, boldly facing the storm, and in true manhood seeking new fields of labor when it is apparent that one is overdone, they allow themselves to be made the pliant tools of designing demagogues and content themselves in bewailing their bad fate and confessing that they cannot compete with Chinamen. The real, plucky, energetic, straightforward, simon-pure, workingman, need not want remunerative employment in this young, energetic, go-ahead country, if he will only seek it. It is only your lazy, shiftless demagogues who think more of the flattery of scheming politicians than of their own manhood, who are raising such an unmanly outcry in San Francisco, and who by their stupid course, bring honest, deserving workmen into contempt.

THE PROPOSED CANAL BETWEEN THE MISSISSIPPI RIVER AND LAKE MICHIGAN.—Gov. Austin, of Minnesota, in his late speech before the House Committee on Commerce, advocating the construction of a canal to connect the Mississippi river and Lake Michigan, said that the matter under consideration involved three questions: the necessity of the enterprise, its practicability, and its ability to reimburse the Government from its earnings for the cost of the work. He proposed to consider only the first of these. After remarking that the people of Minnesota, Iowa, Western Illinois, Northern Missouri, and Kansas are as much interested in this project as Wisconsin, the Governor proceeded to remark that from one half to two-thirds of the surplus grain crop of 1869 in Minnesota still remains in the bins of her farms or in warehouses and elevators on her soil, because the cost of moving it to Eastern markets is so great. The average cost per ton of railroad transportation is 29 9 000 mills per mile, or five cents a bushel for 60 miles, whereas the average charge per bushel on the Minnesota and most other Northwestern roads is 10 cents for every 60 miles. The average distance from the Mississippi river to Lake Michigan is 170 miles, cost per ton of freight for this distance, $5 03. The average distance from the Upper Lake ports to the mouth of Green Bay is 150 miles; cost of transportation per ton, 45 cents, cost of freight from the Mississippi river to Green Bay, with cost of transshipment at the former point, $6 20 per ton. The distance between the same points by the proposed route will be 278 miles, and the cost of transportation about $1 95 a ton, or $1 25 less than by the present routes. The wheat crop of Minnesota in 1869 was 18,500,000 bushels, of which 16,000,000 bushels, or 353,414 tons should be sent East. If $4 25 could have been saved on the cost of transporting each ton, it would have amounted to $1,624,165. Gov. Austin thinks that Minnesota alone could pay for the canal in ten years.

A few days since a committee of Red Hot Democrats of the Seventh Congressional District of New York waited upon Brick Pomeroy and asked leave to use his name for Congress. Pomeroy replies: "If you want me to run for Congress in place of Morrissey, I will do it, but I cannot carry myself through. I can and will work like a beaver, but you must do the pushing." The Committee pledged themselves to carry him through at all hazards.

Bets in Mobile and New Orleans on the Allen-Mace prize fight, were $100 to $75 on Mace. It is estimated that the excursion trip to the battle-grounds will realize $10,000, the half of which goes to Allen, win or lose.

CURRENT NOTES.

Hon. Israel Washburn, Jr., formerly member of Congress from Maine, and now Collector of Customs at Portland, is being urged by some for United States Senator.

The Halifax *Chronicle* learns with the greatest satisfaction that the Dominion Government intends to enlist no Nova Scotians for the army about to be sent to Red River.

An Arkansas paper fearlessly proclaims that the people must be educated, even if every school house erected is a direct blow at the subscription list of every Democratic paper in the State.

It is said that one United States Senator congratulated another Senator who had just concluded one of his great efforts, thus: "A great speech—the best speech I ever heard delivered by a man who knew so little about his subject."

It is easy to manufacture assassination plots in France, and if the charge of the republicans that the latest conspiracy was trumped up to secure a heavy affirmative vote on the *plebiscite* be true, it would not be the first case of the kind on record.

Judge Thomas M. Peters, of the Supreme Court of Alabama, has written a letter forcibly insisting upon the need of universal education to insure the prosperity of the State, and saying: "Ignorance is misrule, it is confusion, it is sin, it is death and hell; and our safety, as a free people, requires that we ceaselessly war against it with a Carthagenian zeal."

The blue-noses of Newfoundland have a sagacious set of legislators. Lately they took it into their heads to levy a dog tax, and provided that the license should be *four* dollars for each dog, while the penalty for neglecting to license should be *three* dollars. It is needless to add that licensed dogs have been scarce in that part of the New Dominion.

The Stroudsburg *Jeffersonian* has heard of a lady, a German, residing at Tobyhanna Mills, on the D. L. W. railroad, who was on Tuesday delivered of four children at a birth. Three of the youngsters died soon after birth, and the fourth lived till 4 o'clock in the afternoon, when it died. The mother is doing as well as could be expected under the circumstances.

A bill has been reported to the Senate from the proper Committee, to organize the territory of Oklahoma, and to consolidate as many as possible of the Indian tribes into a territorial government. The proposition has been suggested by the more civilized Choctaws of the southwest, who have urged it upon Congress in a formal petition from the tribal authorities.

Senator Saulsbury made a speech before the white men at Newark, Delaware, the other day, telling them that he never belonged to any party but the white man's party, and that he and his friends would have nothing to do with the negroes and did not want their votes. He closed "with instancing the stars and the trees to show that there could be no such thing as Equality."

The "Hooksett pig-pen case" ought to rank with the Pickwick trial. Years ago, a pig-pen stood near the road in Hooksett, N. H., the inmates whereof innocently frightened the horse of a passer-by, causing injuries to the riders. The "injured" straightway sued the town as the injurer, and won the case, but a higher court has now absolved the town from all responsibility.

The British holders of Confederate cotton bonds are a hopeful set. They cling to the idea that the Southern States will ultimately pay them, notwithstanding the clause that has been introduced into the organic law, which reads: "But neither the United States, *nor any State*, shall assume to pay any debt or obligation incurred in aid of the insurrection or rebellion against the United States, but all such debts, obligations and claims shall be held illegal and void." We learn from the *Financier* that these victims are about to hold a meeting to induce the Southern States to provide for this loan.

There are a lot of facetious chaps in the Senate of the New Dominion, of whose levity the St. Catherine's *Times* complains, illustrating it by a recent debate, which it reports thus: "Sir George E. Cartier called the honorable member (Mr. Ferguson) to order in English. Mr. Ferguson asked him to repeat. Sir George E. Cartier did so in French. Hon. J. Sandfield Macdonald replied in Gaelic, evidently denouncing the Ministry, amid great laughter. Sir George E. Cartier defended the Government in Latin and Greek. [Great applause.] Mr. Abbott protested against the debates being carried on in Choctaw. [Laughter.] Sir John A. Macdonald said it was all Greek to him. [Laughter.] Mr. Leviscoute spoke in Spanish."

Gen. Spinner has written a letter in reply to one in regard to the Funding bill, and the attitude toward the same by the National Banks. Gen. Spinner says a case lately came to his notice where a Board of Bank Directors passed resolutions, and sent a copy to the member of Congress from the district in which their bank is located, instructing him to vote against the Funding bill. In regard to a resumption of specie payments, Gen. Spinner thinks that the Government could at any time arrange matters so as to resume specie payments in 90 days, were it not for its indorsements of the National Bank notes; but the banks are not prepared, they manifest no disposition to prepare themselves for an honest resumption of specie payments, and they will not until forced by Congress, hence his desire for the pending Funding bill.

There is no indication whatever of a reopening of the Alabama claims question. The subject has not been officially mentioned for several months. It appears that one government is waiting for the other to advance in the resumption of negotiations, which were suspended by the Senate's rejection of the convention. Neither the United States nor Great Britain intimates a disposition to yield any of the ground heretofore respectively occupied, both parties closely adhering respectively to their former expressed positions. There is nothing to exclude the belief that Great Britain is desirous of an early settlement of the points at issue, in order to avoid difficulties which might possibly arise from them in the future. The subject, however, is scarcely ever mentioned by persons in authority, but when it is the hope is expressed that some means may be devised to settle the entire subject of claims to the honor of both nations. No one, however, has yet suggested how this may be accomplished.

Who is "Jones?"

AMITY, May 2, 1870.

EDITOR McMINNVILLE BLADE: In the Portland papers of last week you will see an item concerning one "Jones," who made a speech there, saying among other things that the Republicans of this county offered him $100 for his vote. This fellow Jones was a resident of this place a short time previous to his going to Portland, and this story is in perfect consonance with his character and conduct while here. it is utterly false, and is repudiated by all good men here irrespective of party. He bilked several of our citizens out of small sums and finally skulked away, leaving a board bill of $20 unpaid. He went to Portland, and after a season of bumming, fell in with Bill Newby, who was down there collecting recruits to swell the Democratic vote in this county. Bill took him to his bosom, brought him up on the boat, paying for his grub and passage. This occurred on Friday, the 27th ult., and Newby will not dare deny it. VERITAS.

To the above the *Blade* adds the following:

The "Jones" referred to so uncharitably in the above is now a resident of this place. He is supposed to be a lineal descendant of "Parson Jones." In early life he essayed to learn the shoemaker's trade, but his mind was too feeble to master the intricacies of the business. He is now a Democratic politician, and as such he is a success. He is a star of the first magnitude in the constellation which revolves around W. T. Newby, his purchaser and present owner.

The Daily Oregonian.

[illegible] DAY MORNING MAY [illegible] 1870

On the Way to Oregon

[illegible] the steamer was Mr H [illegible] M [illegible] Patton [illegible] [illegible] has [illegible] months [illegible] whom [illegible] Mr Patton during his absence visited various portions of [illegible] very [illegible] of our State He was [illegible] constantly employed in answering questions from people who desired information because they had set their hearts upon emigration to the Pacific coast [illegible] of every Oregonian at the East he found [illegible] quite uninformed in regard to Oregon and he very frequently met questions of the most ridiculous character

Summing up his observations in all the States he visited Mr Patton concludes that there will be a large immigration into Oregon during this season People are coming here from Ohio, Illinois, Pennsylvania etc many with their families, to stay in any event others to look at the country, intending if they find the condition of things satisfactory to return and bring out their families It is no all talk, with these people for the tide of immigration is already flowing On the same train with Mr Patton there were about three hundred passengers among them several families who came direct on to Oregon by the steamer Most of these people come here with some means with which to purchase homes and they will constitute at once a permanently valuable element in our population

The rush of people westward with the opening of Spring has already become unprecedented The Pacific railroad is now running two full passenger trains each day and it is rare that they are not crowded to overflowing with passengers coming to look at or settle on the Pacific slope Think of 500 or 600 added to our numbers every day! The Railroad company fully advised of the movement among the people everywhere, are preparing to largely increase the passenger carrying capacity of their road At the present rate, the number of people to arrive on this coast within the next five months could not fall much short of 75,000

Mr Patton mentions one company of men who were to leave Cleveland, Ohio, about the 15th inst for Oregon, composed of men of wealth who are coming out here to examine into our iron resources and the chances of investment in manufacturing enterprises The coming of such men is significant of great things for Oregon in the near future

Remarkably "Enterprising

By what means did the *Herald* obtain a portion of a letter addressed to us? It would appear that Grasshopper Jim has advanced from eavesdropping to the even more laudable and enterprising business of obtaining surreptitiously letters addressed to other people, and then "blowing about it In publishing Mr Gaston's letter we omitted portions here and there,—a right which every editor has, and which every editor frequently exercises When correspondence is sent to an editor he has a right to reject it, to use it all, or to use a part of it as he may see fit, and this right is always exercised by every person who knows how to conduct a newspaper Some of those parts of Mr Gaston's letter which we did not use appear in the *Herald*. How did they get there? How did that paper obtain control of our property? We have known that the OREGONIAN office has been explored several times by somebody on the search for curiosities, but never had till now a hint as to the identity of the parties to whom we have been indebted for these attentions The paper which makes this confession against itself has the visage to say that we have been "guilty of a shameless fraud" in managing our own business according to the rules and custom prevailing among journalists everywhere We can inform the *Herald* that it is none of its business how much or how little of our correspondence, telegraphic dispatches, etc, we publish or omit, but if it relies on making an interesting paper by publishing the matter we reject, when it can get hold of it it will not be more successful hereafter as a popular newspaper than it has been heretofore Those portions of Mr Gaston's letter which we did not print relate chiefly to Congressman Smith, and we did not print them because we are in the habit of exercising our right to print or reject whatever is offered us

Preserving States, Not Destroying Them

The Democratic party is fearful, very fearful, that the Republican party will abrogate all the State Governments It sees nothing in the future but a colossal State wreck, and a grand consolidated empire because the nation has established universal freedom It has so much confidence in the virtue and intelligence of the people, that it anticipates they will surrender their liberties without a struggle, and voluntarily adopt despotism

The Chicago *Republican* makes a good point by saying that a little reflection on this subject would disabuse the Democratic mind of a great error. What has the party been about for long years, but bringing back to life, and reorganizing States that the Democracy had destroyed? Why the revival of State Governments republican in form has been one of the great missions of the party Instead of destroying, it has made more States than any other party and prohibited a lapse into despotism by the most stringent measures to perpetuate freedom An enemy to the States! What party has ever done so much for the States as the Republican

A Dishonest Dodge

As we see by the dispatches this morning Mr Casserly has at last succeeded in bringing the Senate over to his views on the subject of land grants He has procured the insertion in a railroad bill pending before that body of an amendment requiring the company to reserve the lands bestowed upon it for sale to actual settlers at $2 50 per acre Let the party in power in every case guard properly and secure the rights of the poor wanting homes and opposition to land grants will soon become insignificant —*Herald*

Is this what the *Herald* would call honest journalism? Mr Casserly had not brought the Senate over to his views on the subject of land grants but he has himself come over to the Republicans in both branches of Congress on that question The Portland Astoria and McMinnville bill contained this very provision requiring the company to reserve the lands bestowed upon it for sale to actual settlers at $2 50 per acre yet Messrs Casserly Thurman and every other Democratic Senator spoke and voted against it and two thirds of the Democratic members of the House followed their example Mr Casserly has now accepted a proposition which he opposed with all his might when the Oregon bill was under discussion The *Herald* just fed him then and it is a remarkable piece of impudence for it now to say that the Republicans have given up their position and accepted that of Mr Casserly and the Democrats The facts are the other way and the *Herald* well knows it

Editorial Notes

After the further great reduction of taxation that is now proposed there will still remain a surplus of revenue sufficient to pay off the debt at the rate of a million a week This is a [illegible] certain [illegible] the rapid growth [illegible] of the country

[illegible] the *Herald* [illegible] Mr [illegible] will be kind enough to publish those portions of it which describe the repudiation platform that its party adopted at Albany and which show how injurious to the State would be the triumph of the repudiation party

In the judicial election in New York the Democrats have carried the day as usual The dispatches tell how it was done The legal vote was about half polled but the illegal vote was out in all its force Winning elections in New York by the illegal vote is now an established custom, and nobody expects anything different

Is it true as stated, that one of the Democratic candidates for the Legislature in this county is a large owner in the ship *Hattie Besse* which has just arrived with a cargo of Chinese? But we don't know that it is any more objectionable for a Democratic candidate for the Legislature to be importing Chinamen than for a Democratic candidate for Governor to propose to take them as operatives in his woolen mill

Who could have supposed that any of the shining lights of the immaculate Democracy would engage in the work of thwarting the will of the people of Oregon? Yet Bill Newby is trying to buy Republicans out of Yamhill county by offering to give them drafts on Salem for $30 each But he is meeting with poor encouragement The Salem managers have no doubt furnished him with a large corruption fund and now Bill's great grief is that the Republicans are not disposed to sell out

Certain portions of the speech delivered by Mr J H Reed at the Democratic club meeting on Tuesday night were remarkably plaintive and truly flattering to his party He said that Republicans were going to make an effort to "buy up" votes, and he plead with the incorruptible Democracy not to sell! So earnest and so sorrowful were his entreaties that it was clear he feared that "Democrats" would offer themselves for sale by whole regiments These Democratic orators have a most singular way of complimenting their followers

A Democrat Rebukes the Demagogues of his Party

It is refreshing, indeed, to find that there is one man of prominence connected with the Democratic party and a candidate for office, who discards all the humbugs of demagogues about the Ch[illegible] and about the national debt Mr B F Harding, ex Senator of the United States, and now a candidate on the Democratic ticket in Marion county for State Senator, made a speech at Waconda on Saturday last in which he frankly said there was nothing at all in the "Chinese question" which the demagogues of his party are trying to make so much of He also said that the only way to deal with the national debt was to pay it fully in coin We present the *Statesman's* report of his speech

While Mr Grover was addressing the citizens of Salem, Saturday, Ben Harding, Democratic candidate for State Senator, was at the same time speaking to a large meeting at Waconda His views of the political situation differ so widely from Mr Grover's that it may be of interest here to relate them.

The question of Chinese citizenship he said was not and could not be made an issue in this campaign, and he doubted very much whether it would ever seriously divide the people of this coast Both parties here were alike opposed to it. Besides, he said there was no probability that the Chinaman would ever ask to become a citizen and if he did he could not under our naturalization laws.

He showed from the 4th Sec of the Act of Congress of the 14th of April, 1802, establishing a uniform rule of naturalization, and from Supreme Court decisions, that the children of alien residents, born in this country, were not citizens and could not become citizens if their parents could not under the naturalization laws, and the children of alien residents who might, under the law be naturalized, were not even citizens. He thought, therefore, all talk about Chinese citizenship in this campaign nonsense and demagogism Speaking of the late treaty with the Chinese Empire he said the object and end of that treaty, like the former treaties, were to extend and enlarge our commerce with that nation; that it secured to us commercial advantages that we never enjoyed before, and that this nation, and the people of this coast in particular, could not afford to lose the trade and commerce of that great empire. He showed that our principal commerce in the future must be with those Asiatic nations and from whom we would derive our commercial greatness He thought it the part of wisdom for the states men of this coast to promote the most friendly relations with Asiatic nations that we might secure over other nations their trade and commerce. He could not therefore concur in the opinion expressed by many of his Democratic friends that the Burlingame treaty securing to us only commercial advantages, should be repealed On the question of the payment of the national debt, he said there was now no other way of paying that debt except in coin since the recent decisions of the Supreme Court made coin the only legal tender that we had to pay it dollar for dollar in coin and that all talk about paying it in any other way was twaddle The repeal of the 14th and 15th amendments was simply an impossibility he said He differed with the Republican party on questions of tariff and the administration of the affairs of this State

[illegible] —The ship *Hattie C Besse*, Bama, Master, 29 days from Hong Kong, China, with freight and passengers to Wa Kee & Co. and Tung Duck Chung & Co reached this port at 11 o clock A. M. yesterday The firing of her gun was the signal for a rush of all the un[employed] people in this city to the dock of the China, New York and Liverpool line She was [illegible] *Okanagan* but before the [illegible] were cast off or the ship's line [illegible] several prominent Democrats were found clinging to her rigging and absolutely forc[ing] [illegible] on board. One, a very prominent [illegible] had [illegible] her deck was compelled [illegible] he remonstrated saying [illegible] with the Captain As he had [illegible] his story would not go [illegible] he finally returned to shore We can[not] [illegible] this rush of Democrats on [illegible] of the *Hattie C Besse* but presume it must [illegible] understood by them, as Capt. Holman [illegible] prominent Democrat running on the [illegible] ticket in this county for the legisla[ture] [illegible] a part owner in the *Besse* and if the [illegible] dodge" is to be played upon these [illegible] will no doubt have a hand in 'corral [illegible] the profits Not a Chinaman s face was in [illegible] until 1 o clock when the Customs Collector Hon. A. Hinman and his deputies, appeared [illegible] to inspect the passengers as they came [illegible] The arrangements were complete for a [illegible] inspection and but a few citizens were [illegible] including the reporters, to the scene of [illegible] The Chinamen were allowed to [illegible] in groups of three or five, and the officers [illegible] minute and careful examination of their [illegible] permitting them to pass on as the searches [illegible] Three hundred and twenty four [illegible] forty-seven boys two doctors, and fourteen of the crew Chinese were thus landed and nothing contraband was discovered They were [illegible] on the square by Sam Poey agent of Wa Kee, who is on the way here in the *Her[illegible]* *Doctor*, and they are a clean neat healthy look[ing] [illegible] of fellows, the [illegible] of the Celestial Empire. The freight of the *Besse* amounts to about fifty tons only—chiefly rice

PERSONAL.—We were pleased on making the acquaintance of a party of gentlemen—Col C C Lane and John Kurtz Esq of San Francisco and Mr Fred May of Nevada—who are traveling in this region to hear the words of praise they have for Oregon—no flattery as Col Lane has already "backed" his observations by the pur[chase] of 640 acres of land through St [illegible] & Upton agents paying therefor cash $[illegible] They will all soon become identified with the [illegible] of Oregon and they are the kind of men we welcome here

THE SAME SORT It beats Old Nick that the [illegible] of California will persist in sending [illegible] and in abundance of other articles to [illegible] consigned to the Oregon and California Railroad Company, when we are given to under[stand] [illegible] from the Democracy that the road is simply [illegible] electioneering dodge," to dry up after [illegible]

BRIEF MENTION —The school girls who found [illegible] will [illegible] confer a favor by leaving [illegible] at the American Exchange

The river is slowly receding at this point

The *H W A[illegible]* and *[illegible]* are both in San Francisco loading for this port

The [illegible] will depart for Victoria and [illegible] on the Sound this evening at [illegible] o clock

The *Fannie Troup* had been chartered by Mar[illegible] [illegible] before she passed into the [illegible]

[illegible] said that Rev Thomas H Pearne formerly [illegible] has been nominated for the Consulate at Kingston Jamaica

Work has been suspended on several buildings now in process of construction owing to the showery condition of the weather yesterday

Judge Caton will leave to day for Victoria, via [illegible] intending to return by the [illegible] in time for the next San Francisco steamer as he must reach his home by July 1st in Illinois

The Grand Lodge I O O F visited Samar[itan] [illegible] Lodge in a body last evening and were after wards entertained at the Lafayette Restaurant The work of the Order will be exemplified in the [Grand] Lodge to day

The report that the *Fidelity Taylor* was in the river and in tow of the tug *Astoria* was an error When the *[illegible] T[illegible]* crossed the bar day before yesterday at 9 A M no vessel was seen standing off and the tug was lying at Astoria

THE COUNTY POOR HOUSE —The following comes to us signed by Patrick McGowan John Kinsles and H Sturnberg Other statements of a similar import have heretofore been published

We the undersigned patients have been thrown out of the county poor house on account of our complaint of not being treated in anything like a humane manner We have been for days and days without the necessaries of life and when we complained we were treated with threats that we would be thrown out in the streets Our food was mostly cabbage and stale beef and bread of the worst kind, with now and then potatoes Coffee is unknown and as for medical treatment we have been neglected by a doctor who is getting the small sum of fifty cents per head a week, and claims to be furnishing medical treatment at that low price. Some of us have been on the county for more than a year We made our complaint to the Commissioners and all the satisfaction we could get was to clear out After we were thrown out we had nothing to eat for twenty four hours and were so sick that we were unable to go to find relief Dr G W Brown heard of our case and is now attending us without charge

From the above it will be seen that to be poor in Multnomah county is worse than to be a [illegible] because some attention is given to the roughs and criminals confined in our jails

A LECTURE —Through the solicitations of many citizens Rev G F Stalling of Harrisburg Penn has consented to deliver a lecture before he leaves for his Eastern home Those who have had the privilege of hearing this talented and popular divine on the last two Sabbaths in the Lutheran Church speak highly of his ability as an orator of great merit Rev Mr Stalling came to this coast to assist in the dedication of the Lutheran Church and has been sent out by the Home Missionary Board of the Lutheran Church to look after its interest on the Pacific Coast. Both the Church and many private citizens are looking to him for a truthful report from Oregon and the west His representations of this coast will go far to facilitate the effort of the citizens of this State to fill our country with a thrifty and prosperous population His subject will be A Stranger s Impression of Oregon No doubt a full house will assist in heightening his impressions of the citizens of Oregon as well as the beauties of our State We bespeak for the talented lecturer a full house

REPUBLICAN CLUB MEETING —The Republican Club Room was open last evening for public speaking and a spirited meeting was held. Speeches were made by Messrs Chas A Ball, Wm Pickett and J N Dolph We were unfortunately, too late in attendance to hear Mr Ball, but we hear his speech spoken of as an able and creditable effort. Mr. Pickett advanced some very sensible and practical ideas in relation to State legislative policy and clearly defined the duty of individual voters in regard to their action upon such questions as affect the national credit. Mr Dolph followed with an able speech giving the records of the two parties now claiming the suffrages of the people, and stating concisely and clearly the issues pending We are precluded from giving any extended statement of the arguments, by want of both time and room The meeting was full during the entire evening and was enlivened by excellent music by the 23d Infantry Band

GRAND GIFT CONCERT —As will be seen by reference to the advertisement in this paper, a grand gift concert is to be given at the Mechanics' Pavilion, San Francisco, on the first of September, in aid of the Mercantile Library Association The tickets have been placed at $5 Readers will observe the full plan by reference to the advertisement The enterprise is in the hands of responsible parties and we have not the slightest doubt but that it will be conducted upon an honorable basis

A CHANCE FOR EXCURSIONS —We are reliably informed that the Oregon Steam Navigation Company will issue excursion tickets to families and individuals for a trip to the Cascades of the Columbia and back any time this season, at half regular rates of fare This is a splendid arrangement for persons to see the most beautiful portion of this part of Oregon and we have no doubt but that many will avail themselves of the opportunity thus afforded

THE FANNIE TROUP —This splendid steamer has passed into the hands of the Oregon Steam Navigation Company, and Capt Turnbull turned her over yesterday The *Troup* is one of those craft whose owner could not but feel a deep seated pride in her and we are not surprised to learn that Capt Turnbull feels somewhat as though he had parted with a pet She will be well taken care of, however, by her present owners

THE LUTHERAN CHURCH BELL —The *Moses Taylor* brought two very large steel bells to this city on her present trip one of which is for the New Lutheran Church It will weigh perhaps ten hundred pounds with the fixtures and is in all respects a genuine church bell of fine tone They were both manufactured in Chicago The mate of this one is for the Congregational Church at Walla Walla

COMING TO SEE —Among those who arrived by the *Moses Taylor* from San Francisco was Mr J W Wiley of the firm of Davis & Furber North Andover (Mass) manufacturers of wool machinery Mr Wiley has heard much of Oregon and comes out to see for himself. His firm we think has manufactured much of the wool machinery now running in Oregon

BRICK MACHINES —Mr A C Ripley and Capt Wm Moltbrop have entered largely upon the manufacture of brick below this city about twelve miles They have a method of moulding these brick by machinery which enables them to produce a superior article One of the machines for this purpose, from Philadelphia arrived by the *Moses Taylor*

THIEF SPOTTED —A thief at the wharf on the arrival of the *Moses Taylor* on Tuesday evening stole a carpet bag which may be the means of sending him to Salem for a term of years We hope so at all events He belongs to the gang of confidence operators in our midst and has an interest in the swindling lock device

[illegible] —The [illegible] factionists to the number of half a dozen left this city yesterday on a spurge along the Columbia with a brass band and flags flying They will probably run it until June 6th when they will hear of Mr Garfielde s re-election and will then hunt their holes again

WORKING —The telegraph line of the Oregon and California Railroad Company is now in good working order Mr H C Stevens will have charge of the office at Mil[waukie] He has been of material service in fixing up the batteries along the line

PATENT SHINGLE MACHINE —There is a patent machine on the wharf for manufacturing shingles which has been shipped to Leffel & Myers of this [illegible] Messrs Green & Fail of Walla Walla who have entered upon the business there

[illegible] —We notice that Mr P Protzman returned by the *Taylor* on Tuesday evening from a business trip to San Francisco being his second trip this spring to purchase goods for their city trade

FOR GRANT COUNTY —The Canyon City Grant county Mining and Mill Company received by the steamer now in port a quantity of heavy machinery from San Francisco

Newspaper Statements

NOW THE PROFITS [illegible] THEIR TRUTH

This is not an age when people believe or trust whatever they see in the public journals Fifty or sixty years ago when the accuracy of a statement that had appeared in one of the gazettes or News letters of the day was questioned it was considered a sufficient answer to all cavil to say It must be so for I read it in the newspaper It is not so now Newspaper assertions must be verified before they are taken for granted and this is especially the case as regards statements setting forth the remedial properties of Proprietary medicines For example It was not until the tonic and alterative properties of Hostetter's Stomach Bitters has been deliberately and thoroughly tested by thousands and found to be in perfect accord with the printed claims put forth in its behalf, that it was accepted by the public at large as a *Standard Remedy* But when multitudes who had resorted to it as a safeguard against malarious fevers, a cure for indigestion and biliousness a means of strengthening the frame cheering the spirits and imparting constitutional vigor came forward and testified that its beneficial effects had exceeded their most sanguine expectations *of course* the world believed To resist such proofs was impossible Great care had been taken from the beginning not to overstate the merits of the Bitters. Exaggeration and bombast have been the death of many preparations that might otherwise have survived They were weighed in the balance and found wanting Hostetter's Bitters on the contrary have ever been announced in grandiloquent language as a cure for every bodily ill but simply as a pure harmless vegetable specific possessing remarkable invigorating regulating antibilious and antiseptic properties This is exactly what the public know the medicine to be and its enormous sales is an argument in its favor

Is the Union Pacific Coming to California?

[From the San Francisco Bulletin, May 18]

The question which forms the caption of these remarks was often asked when the companies building the eastern and western ends of the transcontinental railroad were at the height of their rivalry Many answered it in the affirmative and it is true the eastern company actually made a reconnoissance for the extension of their track to the California State line believing they could reach the State before the Central Pacific would be able to cross the Sierra Nevada Since the unexpected success of the latter company in meeting their Eastern rivals in the Utah Valley, it has been frequently reported that the Union Pacific meant still to enter California by a northerly route connecting with the Vallejo Railroad. The Central Pacific folks were quite as able to extend their road eastward, by way of Colorado and the Kansas Pacific, so that nothing would be gained by pushing an independent parallel line to California, and all talk about the project ceased. It is revived lately by the fact that a party of Union Pacific engineers is now in the northeastern corner of the State surveying for a route from Salt Lake through Madeline Pass into Big Valley This pass is said to be about 5 000 feet above the level of the sea It is a level valley, opening across the Sierra Nevada from Susanville, at the lower end of Surprise Valley and is one of those northern summit valleys which connect with the elevated plateau of Nevada It thus affords an easy approach to the western slope of the Sierra avoiding the deep snows of the southern passes From the Madeline Plains to Butte Creek, near the Yreka, the country is described as low and open comparatively free from snow, and easily traveled at all seasons The people of Yreka are constructing a wagon road by this route to Susanville, a distance of 150 miles, and the *Journal* of that place believes the Union Pacific railroad will be extended by this route to connect with the California and Oregon railroad.

It is more likely that the Union Pacific, if it is to come to California at all will expect to unite with the California Pacific or Vallejo Railroad at some point in the upper Sacramento Valley The survey now being made is probably only one of several preliminary to selecting a route ostensibly aiming at Oregon The Company has announced its intention to build a branch to that State, and its Chief Engineer, G M. Dodge in his lately published report for 1869 discusses the relative advantages of several proposed routes, He gives the preference to the Ham's Fork, Bear River and Pont Neuf Gap route, which reaches the Columbia river by the Snake and Umatilla Valleys in a distance of 688 miles from Granger's the station on the Union Pacific Railroad at the mouth of Ham's Fork, and 1,565 miles from the Missouri river. This route, says Col. Dodge, gives a line across the continent that can never be approached in grades, alignment or cost, by any other, and it avoids the deep snow of the Wasatch and Sierra Nevada.

Again, says this officer, "by taking this route and striking west from King's Hill up the Malheur, to [illegible] the Blue Mountains to the south, passing near Malheur Lake, reaching the Sierra Nevada at Goose Lake, and taking the Beckwith Pass into California, would be a perfectly feasible route " He adds that engineers who have examined it claim that it is superior in grades, alignment and cost to the route of the Central Pacific, and he says that it would be well to have instrumental surveys of it made, and settle the question as to its alleged superiority.

All this looks as if the Union Pacific had not abandoned its original idea of coming into California, as well as Oregon by an independent line The Company is very anxious to command the traffic of these two States, as well as of Idaho Washington and Montana, for its own road exclusively, instead of being compelled to divide transportation profits with its California rival Meanwhile the Central Pacific managers are approaching Oregon rapidly by means of a road up the Sacramento Valley, which will connect with Holladay's road at the State line inside of two years, and thereafter draw business from the whole country between Feather river and Puget Sound. The Central Pacific also contemplates building a branch from the Humboldt to the Columbia, through Idaho It is evident that the two great corporations which built the first Pacific Railroad will be keen rivals for the growing traffic of the country west of the Rocky Mountains, and that their rivalry is to be the means of more rapidly developing large and important regions adjacent to California and Oregon

Murder Tolerated and Encouraged

[From the Stockton (Cal.) Independent.]

A recent occurrence in Marysville prompts the *Appeal* of May 4th, to indulge in a few timely and sensible reflections on the indifference to murder—remarkable even for California—that is just now frightfully prevalent Within a few days a man passing along one of the public thoroughfares of Marysville, attending to his own business molesting nobody, interfering with nobody accosting nobody, was set upon by a number of men who probably did not know and had never before seen him, and by them he was assailed from the rear, stabbed in the back beaten cut, kicked and cruelly and remorselessly murdered The fact in all its minute and horrible details has been telegraphed from end to end of the State, but neither in the city where it occurred nor anywhere else in the State has the atrocious deed excited astonishment or serious indignation. No reward has been offered, nor have any vigorous measures been instituted for the arrest or discovery of the perpetrators. The crime was unquestionably a brutal deliberate, cold-blooded murder—a cowardly assassination, but it nowhere excited more than momentary interest The mystery of this indifference, which in a land of boasted enlightenment and Christianity ought to be considered marvelous, is solved by the simple announcement that the unoffending victim was an inoffensive Chinaman But had the conditions been changed had a posse of Chinese even on serious provocation or in the heat of an altercation set upon a white man and killed or maltreated him, the whole State from Siskiyou to San Diego, would have been ablaze with excitement; the Supervisors and our most excellent Governor would have strained the limits of the law as to the amount of reward they would have offered and a numerous class [illegible] would have loomed with lengthy ed[illegible] als [illegible] the brutality of the Mongolian race and the [illegible] influence of their presence in [illegible] Is this the measure of our sense of justice? Are these the evidences of the superiority of our race? [illegible] our religion? And yet is a brutal murder who but the legitimate fruit of pernicious [illegible] that form the staple principle of a great party that claims and is struggling for the control of this Government Class prejudice the idea that no other race has rights that Caucasians are bound to respect the idea that competition or joint habitation of this continent by any other race cannot be tolerated is directly and unmistakably responsible for this and a long catalogue of similar infamies Our boys pelt and maltreat Chinamen and are unmolested or encouraged If the Chinamen should retaliate in kind, the to sin of extermination would be sounded Herein is the key note of the Marysville murder and her [illegible] of kindred crimes Cannot we arrest this evil, or are we lapsing into barbarism?"

Admiral Porter has written a letter [illegible] which he says that the Delaware is the most [illegible] river in the world and that Chester Pennsylvania is the very best location in the United States for building iron ships He adds There is going to be an immense business done in the next ten years in iron ships Our Government is pledged to the necessity of rescuing our commerce from the hands of the English and must necessarily from year to year grant liberal drawbacks and subsidies until we can stand on our own legs again

REPUBLICAN PLATFORM

The Union Republican party of Oregon, in Convention, makes this declaration of its principles and policy

1st. Unfaltering devotion to the Union first last, and forever and unwavering fidelity to the Constitution and its amendments, and to the laws of our National Legislature.

2d We wholly approve the principles and policy of the administration of President Grant, as carrying into practical application the principles for which we have successfully striven And we particularly commend these points in his Inaugural Address, wherein he declares—"let it be understood that no repudiator of one farthing of our public debt will be trusted in public places, and it will go far towards strengthening a credit which ought to be the best in the world and I would protect the law abiding citizen whether of native or foreign birth wherever his rights are prejudiced or the flag of our country floats and I will have no policy to enforce against the will of the people."

3d We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations and especially with regard to our just claims against Great Britain

4th We denounce all forms of repudiation as a national crime—and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home or abroad not only according to the letter but the spirit of the laws under which it was contracted And for this purpose we favor a strict economy in the Administration of the National Government and the application of such payment of all surplus revenue from whatever source derived and that taxation should be equalized and reduced as rapidly as the national faith will permit

5th We make no distinction between citizens whether of foreign or native birth and that we sympathize now and ever with men of all nations [illegible] striving for self government

6th That we are opposed to any change in our naturalization laws which shall admit to citizenship any [illegible] thereto under said laws

7th We favor [illegible] system of railroad and river improvements in Oregon in order to develop [illegible] settlement of our unoccupied territory—and for this purpose insist that [illegible] liberal grants of land

8th We favor [illegible] tariff for revenue [illegible] our domestic manufactures as will not diminish its efficiency for the purposes of revenue

9th We favor [illegible] the people [illegible] who have been [illegible] relations [illegible]

10th We are [illegible] the cause of [illegible] any [illegible] this State [illegible] the support of common schools

11th We [illegible] Republican party the measures [illegible] saved the Government [illegible] that [illegible] only sure safeguard [illegible] we appeal to the voters of Oregon for their [illegible] support

WASHINGTON TERRITORY

For Delegate to Congress:
SELUCIUS GARFIELDE

Republican Platform

Adopted by the Republican Territorial Convention at [illegible] April 21st 1870

Resolved That the Republicans of Washington Territory [illegible] full accord with the great Republican party of the Nation the party that [illegible] carried the Government through the most powerful and gigantic rebellion known in history notwithstanding the aid and assistance rendered by enemies abroad and traitors at home the party that has [illegible] triumphed over the armies of the rebels at the South has removed the [illegible] the national escutcheon that [illegible] in the eyes of the civilized world [illegible] and our financial credit beyond the hopes of its [illegible] has shown a magnanimity and forbearance to the vanquished that has [illegible] the admiration of mankind and that it is true [illegible] the [illegible] of the people has opened a highway for the interchange of products of the East and West [illegible] that will long be marked as one of the wonders of the age

Resolved That we regard the administration of President Grant as eminently successful that the difficulties [illegible] which were presented by the anomalous condition of eleven States at the close [illegible] have been settled in accordance with [illegible] principles of justice and political economy and we confidently look for a speedy harmonious and perfect restoration of the national [illegible] relations between all the States and the General Government

Resolved That the management of the finances by the legislative and executive branches of the Government by the present Administration has been wise prudent and careful and we refer with pride and pleasure to the fact that no financial convulsions have occurred that the credit of the Government has been sustained and that the relative value of specie and paper currency has approximated as rapidly as was consistent with the [illegible] financial affairs

Resolved That the bold and unflinching position assumed by the Administration in regard to the *Alabama* claims has already produced the most salutary results, which are evidenced not only by the [illegible] desire of Great Britain to reopen negotiations but by a willingness to conduct them in conformity with recognized principles of international law

Resolved That the National and Territorial Governments should be conducted in all their branches with the most rigid economy that the necessaries of life should as far as practicable be exempt from direct or indirect taxation and that we are opposed to repudiation in any form believing that the honor of the nation is of more importance than any pecuniary consideration.

Resolved That we earnestly urge upon the National Government the speedy settlement of our rights to the San Juan and other islands lying between the Canal De Haro and Rosario Straits and the acknowledgement by Great Britain of our just claims thereto and the importance of opening negotiations for the purpose of securing the annexation of British Columbia to the United States

Resolved That the North Pacific Railroad and its branches is a work of national importance hence we call upon the General Government for the most liberal aid and assistance to secure its early construction and completion

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL,

San Francisco Established 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhoea Gleet Stricture Syphilis in all its forms Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering but a miserable existence from the effects of secret indulgences, or from virus absorbed into the system Look at their pallid, emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation since [illegible] until death closes the scene, Let parents guardians, friends, attend to those who are suffering with any of those horrible life-destroying maladies see that they are cared for and cured before it be too late Send them immediately to Doctor Gibbon, a physician who has made private diseases his special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who on[illegible] abilities, publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal [illegible] [illegible] This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical treatment viz Sallow countenance, dark spots under the eyes pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, [illegible] about the loins weakness of the limbs confused vision, blunted intellect loss of confidence diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society loss of memory, hectic flushes pimples and various eruptions about the face, furred tongue fetid breath, coughs, consumption night sweats monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter or through Wells Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates dupe the unwary Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades Some are [illegible] the shoe makers newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find the former occupations in it Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry—it will cost you nothing and may save you many regrets for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters etc, Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR J F GIBBON 623 Kearney street corner Commercial (Private Entrance on Commercial) San Francisco Post Office Box 252.
